WITH ADDED SECURITY FEATURES

FEATURES & BENEFITS

- ◆ Hand laid fibreglass shell.
- ◆ Durable resin based gel coat exterior and flow coat interior.
- ◆ Interior light.
- ◆ lay down front window
- ◆ Flush mounted pop-up T-handle on side doors
- ◆ 3 point locking system on all doors
- ◆ Interior saddle locks, so drop sides cannot be opened from outside
- ◆ Large lockable trade doors with fibreglass panels
- ◆ Side door security bar
- ◆ Completely hand made in Australia.

EXTRA OPTIONS

- ◆ Colour coding to match your vehicle
 - ◆ Pop up vents
 - ◆ Interior lining
- ◆ Sliding windows cut in to the fibreglass trade doors
- ◆ Glass side panels, to replace fibreglass

The tradesman canopy is available in various different widths and custom built to the length of your tray. These canopies are available in a High and Low roof Style.

Just like all our canopies, a wide range of options are available, in particular the fibreglass trade doors can be replaced with glass or a sliding window with flyscreen which is cut in to the fibreglass.

Another Great advantage of a 3XM Tradesman canopy is we can offer a steel reinforced shell which then allows our roof bar system to bolt to the roof.
