THANK YOU FOR PURCHASING AN 3XM CANOPY

- CARE TIPS:
  Keeping your canopy in good condition adds to your enjoyment and helps maintain its value. The simple way to achieve this is to clean it at regular intervals, the same way you would clean your car, using a recognised detergent, stay clear of alcohol based cleaning products as this may affect the paint.

- DISCOLOURATION:
  Fading or Discoloration of the gel coat is a natural ageing process caused by ultraviolet light. To overcome this, use a mild abrasive, this removes a thin layer of the surface (only on non-painted canopies). Since discoloration develops gradually it should not be necessary to carry out the procedure more than once every three years. Frequent use of abrasive material can reduce the thickness of the gel coat to a potentially harmful extent, depending on the severity of the discoloration.

- PROTECTING YOUR CANOPY
  Protecting gel coat and painted surfaces against dirt, oil and extreme climatic conditions not only enhances the appearance of your canopy but also prolongs its life and maintains its original condition. A non-polymer, non-silicone wax polish is suitable for gel coat surfaces, where as a silicone based polish is more suitable for painted surfaces.

- MAINTAINING MOVING PARTS
  - Locks should be treated with graphite powder every month
  - Hinges should have grease applied when required
  - DO NOT treat the gas struts, simply remove the dirt from the shaft with a soft cloth, this will protect the piston seals
  - Sliding window tracks should be greased every 6 months

- UTE LINERS AND CANOPIES
  If your canopy is fitted to an over lip liner, you may experience leaking. This is because the texture of the liner does not allow the rubber to compress adequately to avoid leakage.

- REMOVING THE CANOPY
  It is not recommended to remove the canopy once fitted, however if you choose to store the canopy on a flat, level surface. DO NOT store the canopy on its side, roof or end as this can cause warping or cracking of the gel coat. Avoid storing items on the roof.

  IMPORTANT:
  IT IS ESSENTIAL THAT ALL BOLT/CLAMP CONNECTIONS ON THE CANOPY BE CHECKED AND TIGHTENED IF NEEDED AFTER THE THE FIRST 48 HOURS OF YOUR CANOPY BEING INSTALLED.

  BOLT CONNECTIONS AND SCREW THREADS MUST BE CHECKED AT REGULAR INTERVALS (GENERALLY ONCE A MONTH) DEPENDING ON ROAD CONDITIONS AND DISTANCE TRAVELLED.

  FAILURE TO DO SO MAY RESULT IN THE SEAL BETWEEN THE CANOPY AND TUB COMING LOOSE WHICH MAY CAUSE FURTHER ISSUES AND MAY VOID ANY WARRANTY.

WARRANTY POLICY

The structural condition of this product is supported by a 3 year warranty. TGA shall repair or replace (at TGA's discretion) any defective product or part.

The Hardware, Windows frames and Paint are covered by a 12 MONTH Warranty. There is no Warranty on glass. TGA shall repair or replace (at TGA's discretion) any defective product or part.

Any product distributed by TGA, including locks but not manufactured by TGA, shall be handled in accordance with and to the extent of the warranty offered by the manufacturer of that product of 12 months.

Modification or alteration to any product will void any warranty claim.

To make the warranty claim, the Purchaser must, during the Warranty Period:

- **Contact the place of purchase**
- **Return the Product to the Place of Purchase (at their cost)**
- **Provide proof of purchase of the Product**
- **Provide Fitment details of the Product (for example, who fitted the Product, the location of the fitment and the date of fitment)**
- **Provide evidence of having complied with the Service and Maintenance Recommendations of the Product**
- **Provide full details of the alleged defect.**

Once the information requested above is provided to 3xm Canopies, The Manufacturer TGA Trading will evaluate the Product and determine, in its sole discretion, whether the conditions of this warranty have been met.

If TGA determines that there is a defect in the Product, TGA will, in its sole discretion either repair or replace the product or the defective part of the product without charge to the Purchaser for parts or labour.

All other expenses associated with the Purchaser making a warranty claim are the responsibility of the Purchaser.

If TGA determines that there is no defect in the Product, TGA reserves the right to charge the Purchaser for any labour or delivery costs TGA incurs in inspecting the Product.

The warranty will not apply where:

- **A defect arises outside of the Warranty Period**
- **There has been a lack of regular maintenance and servicing in accordance with the service and Maintenance Recommendations for the Product.**
- **Incorrect, unusual, improper, negligent use or misuse of the Product has occurred.**
- **There has been modification to the Product and/or its components.**
- **Work has been carried out by unauthorized third parties.**
- **Products have had the serial number removed or defaced**
- **Damage to the Product has occurred as a result of an accident or collision.**
- **The Product has been on-sold, assigned and/or reinstalled**
- **The claimed defect is a fuse, battery and or light globes**
- **Where the Product has been subject to abnormal or extreme off road use**
- **The Product has been loaded in excess of the recommended ratings;**
- **A non-genuine product has been used or fitted in the Product.**
- **Fair wear and tear of the Product has occurred, including fair wear and tear of the paint.**
- **Incorrect fitting of the Product other than at a Branch, or an Authorized Agent.**

LIMITATIONS:

- **TGA makes no express warranties or representations other than those set out in this Warranty.**
- **TGA will not accept any responsibilities for incidental loss or damages**
- **TGA is not responsible for any loss or damage to vehicle or items left in case of fire, theft, or any other cause beyond TGA's control.**
- **Any delays caused by unavailability of parts or delays in parts shipments by the supplier or transporter.**
